

ADULT & GRADUATE STUDIES

First & Last Name:

Birth Country:

Date of Birth:

Immunization Requirements for ALL Adult and Graduate Studies Students

If you are missing any of the following required information, you are now on medical probation.

- Documentation of 2 MMR vaccines or proof of immunity by blood test (Not required if born in the U.S. before 1957)
- Documentation of a Tdap vaccine given after 7th birthday
- Documentation of 3 Hepatitis B vaccines or proof of immunity by blood test
- Documentation of 2 Varicella vaccines or proof of immunity by blood test or history of chickenpox signed by a doctor, or NP, or PA. (Not required if born in the U.S. before 1980)
- Documentation of Meningitis ACWY vaccine given on or after 16th birthday or a signed waiver (Not required if at least 22 years old)

In addition, ENC is **recommending** that all eligible students be vaccinated and boosted against COVID-19 according to the CDC (Centers for Disease Control). However, **disclosure of vaccine status is required** for all students prior to coming to campus.

I have read and understand the above information and will have the requirements fulfilled by **30 days after my first class period**. If I need the Hepatitis B vaccination series, I understand that the first dose needs to be given prior to this date with subsequent follow-up dates recommended. **I understand that if all required documents are not received by Health Services within 30 days after my first class period, there will be a \$50.00 late fee applied to my student bill. This fee will be repeated every 30 days.**

I understand that in addition:

Non-semester based program:

After 4 late fees, I will be administratively withdrawn from my academic program until all required documentation is received by Health Services.

Semester based program:

I will not be allowed to return a second semester until all required documentation is received by Health Services.
