## What to expect at Counseling Services

When calling or coming by to make an appointment for the first time, you will be greeted by our Administrative Assistant and asked to complete a series of forms including informed consent, telehealth consent, and the “about you” form, which are all a part of our intake packet. The purpose of these forms is for the student to understand what they agree to and what they can expect from Counseling Services. Additionally, this intake packet allows for the clinician to have a written understanding of the student's current and history of mental health needs- so she can support the student in finding an appropriate level of care and resources.

If you need support in completing these forms, please let our Administrative Assistant know.

At your first appointment, you and your clinician will verbally review the forms you have completed, assess treatment needs, and discuss resources for support.
